Hello Petersen Ranch IRT,

Thank you for joining us last Tuesday (12/13) to discuss the PRMB 2022 Annual Monitoring Report Results. Attached to this email are the meeting notes and the PDF of the presentation slides may be downloaded at the link below.

As a follow up to our discussion in our 12/1 IRT meeting, WRA is planning to revise and resubmit the PRMB 2022 Annual Monitoring report in the new year to make some corrections, including how the CRAM results are discussed in the report. One of the key takeaways from our 12/1 IRT meeting was that moving forward, any performance monitoring results that were not met outright but are being proposed as met for a qualifying reason, such as being within the CRAM 90% confidence interval or otherwise, should be presented as a NO with a footnote describing the qualifying condition in all annual reports. We will send a redlined and clean PDF copy of this updated report early in 2023.

Please let us know if you have any further questions. Thank you and happy holidays!

Warmly,
Marlene
